

Sand Bags / Bird's Eye Gravel Bags

Sand Bags / Bird's Eye Gravel Bags are a low cost and versatile BMP. Each bag is sewn shut eliminating spill-out associated to bags that are simply tied off. In addition to durability, a bag sewn shut creates a consistently shaped unit resulting in a more even and precise stack.

Whether used on construction sites or for emergency situations, the uses of

Sand Bags / Bird's Eye Gravel Bags vary, such as:

Along streams and channels, down slope of exposed soil areas, around stockpiles, to divert or direct water flow, create a temporary sediment basin and across ditches and swales.

Each pallet is stacked with 100 bags, encased in opaque stretch wrap and then strapped to the pallet with metal banding to easily transport from shop to job-site.

Standard fill is 30 lbs - Available fills up to 50 lbs
